**Highlights of the 5 key areas that require the country's attention:**

<b>7.5%</b> of public agriculture expenditure as a share of total public expenditure.	<b>38.0%</b> prevalence of stunting among children under 5 years old.	<b>32.0%</b> of the population is undernourished.	<b>3.9%</b> increase of yield for the country's priority agricultural commodities.	<b>-5.6%</b> increase of the value of intra-Africa trade of agricultural commodities and services.

**Recommendations**

- Rwanda should increase its public expenditure into agriculture in line with the CAADP target of 10% of national budget, and implement necessary measures to increase agricultural productivity.
- The country should improve on nutrition interventions to reduce undernourishment and the prevalence of stunting among children under 5 years old.
- The country should put in place policies that would facilitate and promote intra-regional African trade in agricultural commodities and services.
